Flexible Staffing Solutions – TO FIT YOUR NEEDS:

DIRECT HIRE

Your WSi Account Manager will work with you to understand your individual needs and find a skilled professional based on your ideal candidate requirements. Once you decide who you would like to hire, the candidate is immediately your employee. WSi will assess a one-time placement fee based on a percentage of the employee's annual salary. This fee is due fourteen days after the employee commences work.

TEMP TO HIRE

WSi identifies and hires the right candidate for your specific needs. The candidate is placed on WSi's payroll for the initial 640 hours of employment. During this time we pay the candidate's salary, matched taxes, worker's compensation, unemployment and liability insurance. We bill you at an hourly rate on a weekly invoice. At the end of the 640 hours the candidate rolls onto your payroll and is your employee. If at any time during the initial 640 hours you or the candidate are unhappy, we will replace them with a new candidate and you will be credited the hours already accrued toward the replacement. If you are happy with the candidate's performance and want to roll them onto your payroll sooner than the 640 hours – you can. We will determine how much you have already paid and calculate a buyout figure.

TEMPORARY PER DIEM PRN

We provide candidates that are available to work for you for one day, one week, or an extended period of time. You and your account manager will discuss your requirements for the temporary position. WSi will then find the best employee to fit your needs. We can provide you with the candidate's credentials in advance, or send the temporary employee to your office to start work. When the employee has fulfilled an assignment, or at the end of each week, the employee will present you with a time card. Please verify the hours and sign the timecard. The time card is our contract with you regarding this particular employee and assignment.
